

SPLASH

Sprays for sunny days

WELCOME TO SPLASH SUNCARE

Splash sunscreen is designed with Nordic love in mind, offering you the best protection from the sun. We do all of this while doing our part in keeping our oceans and nature free from harm - everything from the ingredients we use to our environmentally friendly, recyclable and eco-conscious packaging. We've created **Splash** products with beauty and convenience in mind. It's sun care that you'll love to use and offers you easy-to-apply, safe protection with nourishing ingredients and enchanting aromas – all infused with natural ingredients inspired by the mesmerizing and diverse Nordic landscape.

Our products are reef friendly according to Hawaii standards and do not contain Oxybenzone or Octinoxate.

ABOUT US

ABOUT US

Our love for the sun and our passion for spending time outdoors inspired us to create Splash in 2019. We felt compelled to create products that capture our Nordic essence and our passion for the beautiful nature of our home lands.

Our team includes a wide range of professionals dedicated to improving the way we care for our skin. From our management team to our internet and beauty experts, we all share a common goal: creating superior sun care products. Our products are inspired by Scandinavia's sense of quality, design, and the striking beauty of the region.

As consumer preferences in ingredients, formulas and packaging continue to rapidly evolve and shape the beauty industry, we are constantly looking for ways to innovate and stay one step ahead of the competition. The most notable recent shift in sun care is the growing popularity of sun sprays that provide high quality performance and are made with healthy and reef friendly ingredients.

THE ESSENCE OF SCANDINAVIA

Our products are inspired by Scandinavia's sense of quality, design, and striking beauty of the region. We want to capture our Nordic essence and our passion for the beautiful nature of our homelands in all of our products. We believe in environmentally safe formulas offering you the best protection against the harmful effects of the sun.

OUR PRODUCTS

OUR KEY INGREDIENTS

Bilberry (Blueberry), Lingonberry, Citric Acid, Sunflower, Rosemary

We have included this family of ingredients in our SPF products to help nourish, protect and revitalize your skin from the harmful effects of the sun. In addition to providing you with superior UVA, UVB and blue light protection, we have added these natural and beneficial ingredients to our formulas, many native to Scandinavia, helping restore your skin to its naturally bright and healthy appearance!

Vaccinium Myrtillus Seed Oil (Bilberry Extract, part of the Blueberry Family)

Bilberry protects, nourishes, tightens, brightens and beautifies the skin. Bilberry assists with tightening the skin. Bilberry oil from the bilberry seeds offers nourishment to the skin. The strong antioxidants help protect the skin from UVA radiation. Bilberry promotes vital, radiant, soft, supple and firmer skin. Bilberry is excellent for most skin types and does particularly well with sensitive and mature skin. Protects skin from UVA radiation, adds nourishment and tightens skin, works well with sensitive skin groups.

Vaccinium Vitis-Idaea Seed Oil (Lingonberry Extract)

Lingonberry is a wild-growing Scandinavian native berry that's similar in nutrient profile and size with its plant cousin, blueberry. The bright red color of lingonberries is evidence of its different antioxidant compounds compared to blueberries, but both are great sources of polyphenols that defend the skin against environmental damage. The pigment that gives these berries their red color has potent skin-calming and antioxidant ability. Native to Scandinavia, similar to blueberry in nutrient content, defends skin against environmental damage including sun exposure, skin-calming and contains powerful antioxidants

Citric Acid

Citric Acid is found naturally in citrus fruits such as lemons and limes. In skincare formulations, Citric Acid contains a protective antioxidant, and corrective antiaging effects helping to reverse visible signs of photodamage. Citric Acid works by exfoliating the upper layer of dead skin cells to help clean pores, even skin tone and soften and smooth the skin. Helps to even skin tone and brighten, soften and smooth the skin. Found in citrus fruits, works as a protective antioxidant, reverses signs of photodamage, anti-aging, evens and smooths skin.

Helianthus Annuus Seed Oil (Sunflower Seed Oil)

Sunflower seed oil helps to restore the skin's natural barrier function and helps protect the skin from bacteria, allergens and fungi as well as prevent water loss. The skin's natural barrier is a vital part of maintaining skin health. Sunflower seed oil preserves the integrity of the top layers of the skin and helps to improve hydration. Helps reduce drying, itching and irritation. Helps restore the skin's natural barrier function, protects skin from bacteria, allergens, fungi and prevents water loss, improves hydration of the skin, reduces drying and irritation.

Rosmarinus Officinalis (Rosemary) Leaf Extract

A potent antioxidant, rosemary leaf extract protects the skin and prevents signs of premature aging. It also has antimicrobial, anti-inflammatory, and antifungal benefits. Rosemary has a powerfully calming effect on the skin. Potent antioxidant, protects skin, prevents signs of premature aging, calming for the skin.

REEF FRIENDLY SUNCARE

REEF FRIENDLY SUNCARE

We develop our products to not only offer easy-to-use and convenient application, but also to satisfy the requirements for reef friendly sun care established by the Hawaiian Legislature in order to protect our oceans and reef life. We formulate with EU approved sun filters with specific focus on your protection and the environment. That is why we say no to Oxybenzone or Octinoxate, all suspected of contributing to coral bleaching and the general poisoning of all marine life.

We believe in following the latest and most stringent regulations to protect not only you, but also our planet. Choosing the right sunscreen is important to protect your skin from burns and cancer, and we think it is equally as important to preserve our beloved oceans and aquatic life.

We believe in adding ingredients that provide a benefit to your skin, either for protection or for moisturizing and hydration. For this reason, we do not include any other ingredients harmful to your skin such as Parabens, PEGS, Silicone or Allergens.

COMFORT, SAFETY & QUALITY

COMFORT, SAFETY & QUALITY

To us, quality is not only about our products and taking responsibility. It's just as much about how we develop our products with focus on the environment and your health and safety.

We partner with experienced Scandinavian manufacturers not only to develop, mix, and produce our products, but also to ensure regulatory, sustainability and packaging completed according to the highest standards.

We want you to feel safe and confident that our products do not contain dangerous raw materials, are not tested on animals, and follow international laws and regulations.

Our regulatory, quality, and sustainability expert partners within these areas secure a safe and efficient process for product development.

We work according to several ISO-standards and continuously strive to find the newest and best ways to promote sustainability.

“We work according to several ISO-standards and continuously strive to find the newest and bestways to promote sustainability.”
